
[Ultrasonic Cavitation Machine \(Body Slimming Machine\)](#)

Ultrasonic Cavitation Machine (Body Slimming Machine)

Now, we will introduce you our ultrasonic cavitation machine. We have 4 types of ultrasonic cavitation equipment, I Thin-A, I Thin-B, I Thin-C, and I Thin-D, which have the same technical parameters, only differing in appearance. To let our customers have a better understanding of Noble body slimming machine, we provide the following information.

Applications

Our ultrasonic cavitation machine functions to soften hard fat tissue, break up lipocyte, strengthen and tighten skin. It brings a long lasting weight losing result.

Advantages

1. Real 40 KHz ultrasound system enables our customers to obtain best body slimming effect.
2. The energy output is even and precise, as the ultrasonic cavitation machine is designed with a digital frequency control system.
3. Our body slimming machine comes with 5.7 inch LCD color touch screen and quality human machine interface.
4. Our ultrasonic cavitation machine gives non-intrusive treatment without pain, cut, anesthesia, rebound or side effects, thus having zero impact on your job or study. It only takes 20 minutes to do one treatment, but brings an apparent long lasting result.

Technical parameters

Display	5.7 inch color touch screen
Max Output	100W
Frequency	40KHz/28KHz
Power Supply	110/220V 10 60HZ 6A
Dimension	45cm×35cm×20cm
Weight	10kg

As a China based manufacturer of ultrasonic cavitation machine, we are dedicated to supplying quality and low priced beauty equipment to customers all over the world. So we produce our body slimming equipment, IPL skin rejuvenation equipment and skin care equipment, etc. in line with ISO13485:2003 medical device quality management system standard. Due to reliable performance, our ultrasonic cavitation machine and other beauty machines are CE certified, and are now widely applied in professional beauty hospitals, clinics, spas and beauty salon, etc. Meanwhile, the reliable quality and competitive prices make our body slimming machine, etc. popular in more than 30 countries such as America, Argentina, Britain, Italy, Spain, Portugal, Egypt, South Africa, just to name a few.

We accept many methods of payment, including T/T, Western Union. Thank you for your visit! If you have any needs or further questions, please feel free to contact us.
